

FEDERAL RESERVE SAYS
NATION'S BUSINESS BOOMSExtraordinary Activity in Most
Lines—Trade Is Expanding—
Labor Shortage.

WASHINGTON, Nov. 3.—The Federal Reserve Board's monthly business summary announced to-day that general conditions in all the twelve

Federal Reserve districts of the country were satisfactory, with extraordinary activity in nearly all lines. Labor shortage was reported by nearly all the district agents, and most of them referred to the increasing cost of living.

Obligations of foreign governments, bankers and merchants now held in the United States were estimated by the Board at \$1,951,000,000. They are distributed in geographical groups as follows:

Europe, \$1,617,000,000; British

America, \$212,000,000; Latin America, \$88,000,000; China, \$4,000,000. The Board's statement points to these figures as striking evidence of the altered position of the United States in international finance.
